Betsaida - A reporter from a local radio station (WPEL in Montrose, Pa.) emailed me the following question. Let me know if you are okay with this proposed response:

Question: I notice that the entourage of EPA vehicles is no longer parked at the corner of Mill and High Streets in Montrose, about a block from our studios. Does this mean the EPA has completed taking samples?

Proposed Response: EPA has not yet completed sampling in the community. EPA vehicles are no longer parked at this location because we we relocated our command post from the trailers in the parking lot to a nearby building.
